Recalling the commitments of the World Summit on Sustainable Development to pursue a more efficient and coherent implementation of the three objectives of the Convention and the achievement by 2010 of a significant reduction in the current rate of loss of biological diversity, which will require action at all levels, including the implementation of national biodiversity strategies and action plans and the provision of new and additional financial and technical resources to developing countries,

Concerned by the continued loss of biological diversity, and acknowledging that an unprecedented effort would be needed to achieve by 2010 a significant reduction in the rate of loss of biological diversity,
